

Glasgow Station W.I.

- June 1946

Glasgow W.I. members numbering seventeen attended the District Annual held in Combermere on Tuesday last and needless to say all enjoyed the outing. With a perfect day, scenery grand as can be found anywhere in Canada, and the roads. To drive in comfort over those roads go many miles and then have to come back to such roads as we have, outside of Highway 17 for example, the 8th line of McNab. O boy, what a contrast. What have the people of Barry's Bay, Combermere. Killaloe, Wilno and these places got that we down here haven't got ?
