

A new church is under construction, work on it being started in April, 1947.

A mill for grinding grain operated for a number of years, but has been moved to where the large building of the Glasgow Co-operative stands. This building which was built in 1948, has a full equipment of machinery for grinding and mixing of feed grains.

A Community Hall, built in 1915 serves the community for holding all kinds of meetings, Church, Sunday School, Township Council, social gatherings of every kind, all have found the Hall a very useful commodity.
