

This record of work as an Institute, as reviewed over the past 23 years, would resemble very closely that of many other branches in our district. When we hear reports of the various convenors of standing committees at the District Annual, we realize that although we gather as individual groups, we are really "one" in promoting the best interest in "Home & Country" and in exemplifying those words of Our Creed - "Let us be large in thought, in word and deed, and O Lord God do not let us forget to be kind".
