**KELVIN JERMYN**  
April 7, 1909 - July 4, 1998

In Memory of Father, A gentle and kind highly ethical man, who loved the Bruce, books, CBC and his hammers (we found 11 of them in his shed).

He was tenacious, a survivor, together with Marion our Mother beside him, building the house on Gould St. in Warton as well as the cottage at Red Bay.

Times were not easy then and we remember him spending hours studying to become a School Teacher, eventually becoming a High School Department Head. When our Mother died of cancer he was left with 3 young children

and was fortunate to find Ida who was his close companion and wife for 26 years. He was happiest at the cottage, pattering away at some project with a symphony playing in the background. He was thrifty, exasperating us when we discovered him reshingling his own roof at age 83, lamenting that they no longer make 30 yr. shingles (sorry Father, they don't match our siding and we're redoing them). We miss you.

In Father's memory the family has purchased and donated a 5 acre parcel addition to the Petrel Point Nature Reserve at Red Bay. Sincerest thanks to Alan Stacey of the Nature Conservancy of Canada for their considerable efforts in securing this land for us. Thanks also the Federation of Ontario Naturalists who manage the reserve.
