

The first major test was May 31/08 at our annual fish dinner. It served 270 people & washed all the dishes with no problems!

At present (June 4/08) we are in the process of preparing an application for a Trillium Grant. It would like to do some more improvements if this is approved → namely:

Excavating, then graveling the driveway

Re-painting the chimney and other areas.

Water treatment

New chairs

Subsequently, on further investigation we voted to not apply for the Trillium grant. FWIO has imposed many restrictions when applying for a grant so we decided not to proceed at present.

FEB. Our WI supplied lunch following the funeral of ED WHITE, long time resident of MAR. His WIFE, Florence was a member of W.I. For many years the funeral was held at The Thomas Whitcraft funeral home, Sauble Beach with a very large crowd in attendance.
