

just minutes away from what is now the Highlands Golf Course today. The membership reached 30 the following year.

Today Calabogie has lost its mines and lumberjacks but it is still a thriving community and tourist area. Dozens of lakes feature great fishing and hunting destinations for many throughout the year. Calabogie Peaks has become a well-known winter vacation ski paradise and there are many golfing, camping, restaurants and time-share facilities in the area that offer beautiful accommodations for reasonable prices.

Calabogie has the power to enchant you – and will leave you wanting to return for more.
