### A Centennial Honor for Port Elgin

AMBER HEROD

These scenes were not taken from an old photo album, but were photographed in Port Elgin this week. The Reporter caught these hard-working horses and their owners at a busy time. Above is Mr. Doug McVittie driving his team along Waterloo Street on Wednesday morning. Below we have Mr. Carl Gingrich and Mr. Lorne Ferguson ploughing up for the fall with 'Scout' and 'May', just off Hwy. 21 and within the town limits.

*Carl went to his school*

The Royal Chocolate, born and raised at Stafford Farms, at the edge of town on the 6th of Saugeen won the Queen's Plate last year, we thought many times how nice it would have been to happen a year later, in the Port Elgin Centennial Year of 1974.

Little did we think it could occur again. Amber Herod, also born and raised here did just that by winning the 115th running of this classic race!

Both colts are by our stallion Amber Morn. Royal Chocolate, now a four-year-old, is out of our good mare Rocket Shot, while the Tim Tam mare, Royal Herod, produced this year's winner, Amber Herod.

Our family were very honored to meet Queen Elizabeth, The Queen Mother, when she presented the Trophy on Saturday afternoon. We recalled how elated we were last year when Her Majesty Queen Elizabeth

and Prince Phillip were at Woodbine to make the presentation.
