

MARK McDONALD EXAMINES AN UPROOTED MANITOBA MAPLE TREE WHICH FELL IN the town park in the brief storm on Tuesday, April 11. Several trees were blown over in the storm.

This destruction of several trees plus the cutting this week of many dead ones in the park has lowered the tree population in the park considerably.

Using 12 lb test line and a red and white Daredevil, Glenn Lavalee, Glasgow, aged 8, hooked this Muskellunge in the Ottawa River prior.
