## SUGAR TIME

Can't get enough of that sugar bush! At Otonabee Region Conservation Authority's maple syrup demonstration in Hawthorne's sugar bush near Warsaw Saturday and Sunday, young and old found their own ways to satisfy their sweet tooth. Above is two-year-old Jeffrey Winocur and sister Erin, 4, both of Peterborough, with their fingers seeking sweet sap from the gathering buckets. Right is Ozzie Little, of RR 2, Lakefield, wielding the wood-handled device he uses to rake maple syrup from the big Grimm evaporator spewing steam in the background. He is a veteran of 40 years of maple syrup production and was running the wood-fired evaporator during the demonstrations.
