

DERWENT SCHOOL - 3

In 1954 bought 60 stacking chairs, and during the summer a furnace room was added to back of school with oil furnace. In 1956 special black board lights were installed, sink and kitchen cupboards put in one end of the furnace room. In 1959 swings and teeter-totters for school yard were supplied. In 1960 the chemical toilets were removed and rooms off vestibule made into storage rooms; space at south end of the furnace room made into 3 small wash rooms with flush toilets and wash basins, also a teachers' room. In 1963, a new air vent system was put on the school; and new joists and vinyl tile floor laid and new desks purchased.
