Warton Public School

Gr. 2-3 Class Visits Hepburn's Sawmill

Mrs. Couch's Gr. 2-3 class were going on a trip to Hepburn's Sawmill in Purple Valley. When we got there some people got to have a ride in a tractor and there was a baby in the tractor. We got our picture taken with some wood and we got to take it home with us. The kinds of wood we got were ash, maple, beech and cedar. We saw some cows and we got to have some apples from an apple tree. We saw some people cutting wood. Mr. Cayne said one day we might make cradles and birdhouses.

On Our Trip to the Sawmill

One Tuesday we went to the sawmill. Our grade 2-3 class went and six people from Mrs. Weir's class came with us. Mr. Hepburn told us some names of the wood. Here are some names: beech, ash, elm and maple. We got to go in the control room. I got to have a ride on the tractor. We went to see the saw and the best was when we were soaking wet at the end of the day.

by Sarah Gillies

One Tuesday our grade two and three class visited the sawmill. Mr. and Mrs. Hepburn showed us some of the machinery. Mrs. Hepburn gave some of us a ride on the tractor. I liked the part when Mr. Hepburn gave us the apples. Just when we were leaving Mrs. Hepburn gave each of us a piece of wood to bring back to our class.

Our trip to the sawmill.

One Tuesday Mrs. Couch's 2-3 class went to Hepburn's sawmill. Six people from Mrs. Weir's class came with us. We got to bring back a piece of wood. Some kinds of wood are: ash, beech and maple.

by Allan Hellyer

One day my class and I went to a sawmill. We saw some cows. There was a tractor that carried logs to where they made them into lumber. A machine would pick up a log and carry it through a spinning saw. There were two dogs and one almost ran over somebody's face when he fell.

by Trevor Porter

One Tuesday our grade two and three class went to the sawmill. We had fun. We

saw the wood being cut up. We saw some tractors too! We got wood samples as well. We saw cut up wood.
