April 14th 1997

Dear Madam President,

On a recent visit (March) to my daughter in Canada, I decided to go to Stoney Creek to see for myself the place where our great movement began. Imagine my disappointment when we sought to find the exhibition closed from Nov. - April. Fortunately for us one of your staff (very remiss of me but I cannot remember her name) was there working & she welcomed us and gave us a tour of the house & asked us to sign the visitors book. I was very honoured to do this as I was the first to sign for our new Centenary year. Please would you convey my heartfelt thanks to the young lady who kindly stayed on and really made my day.

I really appreciated Canadian hospitality

Mrs. Peggy Middleton
