

↳ Vancouver Island.

I am enclosing photos taken at the Canada-Bucks Day for your interest & to add to your scrap book or what ever. It was a very hot August day maybe a little too hot for comfort. Haddenham is a typical English village in a lovely area of Bucks near the Oxfordshire border. There were various gardens open for the day & a Flower Festival in the church.

Braff Section - showing various crafts including bold Porcelain flowers, brochet, cross stitch, Patchwork, Pen & Ink Drawings, Water Colour Pictures, Decoupage, Applique all married with Demonstrations. You will note a large display in the photo's linking Canada to Wales 1897-1997 with a Totem Pole (made from empty Cornflake packets) flags of Canada U.K. & Wales.

The other displays depicted resolutions put forward to the government over the past 70 odd years, were the creation of each group (made up of 6 Institutes in all). We are part of the Milsbourne Group (named after a small river in the area). Other group's are suitably named after famous people or historical events, etc.

to all & hope to you had had a very enjoyable year of celebrations
