Dear Mrs Beadon,

I am enclosing a photograph to remind you of the day the C.K.W.I. "invaded" the Grand Ice Museum.

I hope the experience was not too painful for you and your fellow W.I. ladies who were so kind to us all, and helped to make it a most enjoyable day, especially for all the W.I. members. We had a lovely holiday in Ontario and felt it was all too short but look forward to another visit some time.

On my return home I was asked to make a report of the day we spent at Storey Creek and to the Adelaide Hunter Hoodless home and I put all the photographs & literature into a scrapbook which was passed around as I explained our visits. Our members were anxious to know how their gifts had been received and we look forward to hearing from you sometime.

We have around 50 members in the Institute and meet on the 2nd Wed. in the month, except during August, and we celebrated our 60th birthday last December. If your institute could be interested in any way of ours then I should be very pleased to keep in touch with an occasional letter and item of interest etc.
