

District project - a visit to the test kitchen Dept Fisheries. a very profitable afternoon there resulted in a better appreciation of fish as a nutritious, palatable food. Each member, who attended, reported her reaction to the good fish dishes sampled.

7 On Mrs Walker's appeal re The Hospital Auxiliary two members Mrs L.A. and Mrs Homer Mac Ewen volunteered as canvassers. An alternate plan was to leave the canvas in the hands of the executive.

Mrs L.A. Mac Ewen referred to a fine article 'Fish Facts in May' The Hearst's. Let's use more fish and so boost ^{one of} Canada's big industries Mrs. Robinson gave a 10 min ^{illuminating} report as official delegate to District Annual and moved adoption of her unfinished report. The chair asked its completion at September meeting, when mimeographed copies will be available.

Meeting was then turned over to Conv. of Agric & Can. Industries Mrs Adams, who had arranged for three papers ^{et} by Mrs Gamble on the nobility of farm life - Mrs Young ^{gave} humorous reading on keeping ahead of the mortgage and Miss Stearns, an enlightening account of Canada's 7 Penitentiary farms, where 85% the inmates are employable - the majority in producing their food. At all but two, there are quarries for construction purposes - not as popularly believed - just to keep inmates busy.

Secretary to secure the S.S. Hall for last Tues. in Sept for a film showing Milk-Made and Farm Homes Beautiful
