Time passed swiftly and everyone was busy. Some ladies made dresses to look like the 1860 fashions, the curator was busily compiling the history, the plates were ordered, lists of former residents were given. Such a search for addresses! Such memories recalled! Word was received from Mr. Denyes. He was so happy to be invited to share in the festivities but the date had to be altered to June 22 and 23. At last the invitations were ready. The minister made about 175 copies which were mailed to our former residents and ministers. Soon replies came pouring in accepting the opportunity to return.
