

Home of Rita J. Calnan.

Lot No.893 Plan 24 & 35

Five Ferguson St. Picton, Ontario.

I bought the Wee House June 28,1978. From Arlie McFarland  
It was stuccoed gold colour, and the outside windows were a little loose  
First thing was to fence in the back yard and make a drive-way for  
the car from the street.

I had to paint and paper every room and put down floor covering.

We moved in and spent our first night Oct.7,1978.

Sept 1981 we had the third siding put on, aluminium and new aluminium  
outside windows and doors.

In October 1982 we had new kitchen cupboards, counter and double sink  
installed.

In 1984 we had an awning put over side door and front doors.

In Jan.1985 we had a gas furnace installed to replace our oil furnace.

August 1985 we had our chimney taken down, the fire-place had been  
equipped with an electric heater and the gas furnace didn't need a  
chimney.

Now we have lots of water and the first automatic washing machine and  
dryer. doing our first washing with it Dec 6, 1978.

Verna Richards
