

BWI Supports the Lung Association at the Stratford Garden Festival March 3, 2016

BWI members lunched at the newly opened 'Romeo's Corner Café and savoured the freshly made salads and soups. Delicious!

The Stratford Garden Show supports the Lung Association. Funds raised from the Stratford Garden Festival help the one in five Ontarians living with some kind of breathing problem through Lung Association health initiatives and lung research.

The whimsical image of wellies and tulips chosen for the 2016 Stratford Garden Festival joyously conveys the spirit of this event and the delight we all take in welcoming this early taste of spring. We wandered among beautiful gardens, shopped the Marketplace and learned from renowned garden experts.
