Our fond farewells

Dearest Friends:

O.K. Scugog here it comes, a whole lot of mush and gush, and you deserve every bit of it. Our family is moving to Michigan in a couple of weeks and I can't imagine anyplace harder to leave than Scugog. I was nineteen and single the last time I lived there so it will be like a strange land to me too. Michigan is getting five ambassadors from Scugog who will make this place sound like paradise, and so it is.

The last several weeks have been packed with

parties, presents, and fond farewells from: school, church, Institute, Guides, Borelians, Nestleton Knights, fellow bus drivers, and an endless number of fantastic folks. All together, they've made it tough to leave and we LOVE them for it.

I will always be thankful that our children, Vicki, Joel and Arthur were brought up in Scugog Township. They feel loved and appreciated which has given them a good sense of worth and a solid personality. Scugog could be chuck full of flowers and

the weeds all out of the lake, but if it didn't have community love it would be worthless. The children will need their 'Scugog Personality' as they go from a grade-number of sixty to three hundred in one grade level at their new school.

'Good-bye, Scugog'... May God keep you beautiful, healthy, and financially strong, but most of all may He keep you as loving and kind as you've always been.

Sincerely Scugog's
 the Schryburt family,
 R.R.2, Blackstock.
