Grade 4 students in all schools in the Kawartha Pine Ridge District School Board are taking part in a literacy assessment.

The assessment consists of three main components: a questionnaire, a short story, and an information report. Since each school must mark their own students' work, all teachers at Castleton will participate in the marking as a professional development opportunity. The student work will be forwarded to the board office by May 4.

Province-wide Grade 3 and 6 testing will take place between May 10 and May 28. Classes are simulating the testing situation on a regular basis in April to establish a good level of familiarity with the procedures for both students and staff. It is especially important during the 2.5-week assessment period that students attend school regularly.
