It seems the only time we hear a lot about the United Way is when they run their fundraising campaign. But the organization works year round to assist people across the county of Northumberland. The latest grant announcement affects users of the Northumberland Transportation vehicle which takes passengers from Cramahe into Cobourg on a regular basis though bookings made in the Colborne Community Care office on King Street East behind Downey Pharmacy.

The Northumberland United Way has awarded to Community Care Northumberland a \$2,500 fund to help subsidize drives within our transportation program. This fund will assist any resident in the County who financially might not be able to attend important appointments within or outside the County.

A previous United Way grant was used to subsidize 50 rides and service eight clients from the County to various medical appointments.
