Mrs. Hall is going to enquire about starting a Historical Society in Glen Orchard. Mayor Wyn Maddock has suggested that the Women's Institute approach the Historical Society. The Glen Orchard Women's Institute building is a hundred years old and should be declared a historic site.

By doing this not only will the building remain but they will be entitled to receive

grants for repairs and maintenance.

The building was given to the Women's Institute on April 5th, 1954 by the Council of the United Township of Medora and Wood.
