To Zephyr Womens Institute:

about 4 yrs ago Audrey and I went to visit the former Isa Allen who moved from Scotland to the farm to the west of our farm in 1925 with her parents and family.

She said they came to Zephyr station by train in ~~the~~ mid winter. My father met them with a team and sleighs and took them to their home, obtained under a 1st world war veterans plan.

When they arrived at the house members of the Zephyr Womens Institute were there. They had the house warmed up and a hot meal prepared for them.

She said how much they appreciated the kind gesture of the ladies.

She died 1 week after our visit
