

B—LOCAL LEADER TRAINING SCHOOLS

Each Institute participating will appoint a leader and an assistant leader to attend the training school and will pay their travelling and living expenses.

The local leaders should be chosen because of their ability and interest in the special field of study. They should be able to work with others. Each leader is expected to attend the entire training school. Only leaders officially appointed by the branch Institute may attend the training school.

After instruction at the school, leaders are responsible for conducting classes for the benefit of their Institutes and communities. A district summary day follows.
