

To the Reeve and Council
of the Township of Norton
Gentlemen.

I beg to report to you that I have set the
Hills on the
side road between Lots Nos 15 & 16. in the fifth Concession
repaired costing in all the sum of \$26⁴⁵ as per statement
herewith annexed

When I went to get the hill repaired in the place where it
was proposed to do it. Mr Andrew McMahon objected
to allow the work to be done as he claimed that it was on his
land. as I considered it would cost a considerable to have the
lines run to find out where the proper line should be
after consulting with the Reeve and examining the old
road way. I thought it best to expend the money in
cutting down and widening the old road way which I
have done and have made it as good as can be made
on such a hill.
