Another milestone in Cobden's history was given formal recognition Friday night when about 200 people from Cobden and S.S. No. 10 Ross gathered in the high school auditorium for the official opening of Cobden's new public school.

Seated on the stage for the ceremony were the school board, teachers, architect, contractor, school inspector and others who had a part in the planning or building of the school.

A welcome to guests was extended by Mr. H. W. Hawkins, a Cobden resident needing no introduction and a former principal of the old public school.
