

Driver trapped over eight hours *Nov. 11/92*

The driver of this car, Larry Broome, is recovering after surgery for leg injuries suffered when his car left the Queen's Line late Wednesday evening. The wreck was not noticed by passersby until daylight the next day, and he was trapped for more than eight hours before being rescued. Keith Bennett, who discovered the accident and is also incidentally Larry's employer, used his tractor to remove the wreck from the ditch. He was assisted by members of the Ross Township Fire Department.
