

The first pages of Volume I are arranged in accordance with the manual in use at that time. We feel that part of the historical value of this book is maintained by leaving it in the way it was arranged by the early curators and committees.

The dates on the cover (1907-1957) refer to the fact that this was presented in observance of the 50th anniversary of Queen's Lane H.I.

The third page gives the years covered by this volume.
