## **KIPLING CENTENNIAL COMMITTEE**

### **OUR CENTENNIAL LOGO**

#### **DESIGNED BY "FREDA ENGSTROM"**

Our logo depicts a Scandinavian long ship which symbolizes the people from Sweden and Norway. Our ancestors came in 1893, settled around Deer lake, reminiscent of the homeland they left. Deer were plentiful and the early settlers relied heavily on these for survival. The pine tree represents the wondrous pine forests that stood -which was used for homes, furniture, cradles, and coffins.  
The hill on which our pine tree rests symbolizes "Saw Mill Hill" still there to-day. Kipling's first little industry started 1904. The fish were plentiful in Deer Lake and our restocking programs are working. The fish is also symbolic of the scandinavians love for herring - pickled or otherwise !
