

WIRE COAT HANGER COVERS

#1

Material: Approximately 12" x 17" for 1  
1 yd 36" width makes 6  
Use Pellon, Felt or Foam

Pattern: Trace around outside of wire hanger. Allow  
1/4" for seams and cut out pattern from paper.

Method: Place bottom of pattern on fold and cut out  
material. Embroider or paint design, name or  
initials on front section and hand sew front to  
back along sides. It is not necessary to cover  
hook.

.....

#2

Material: Approximately 2" x 27" for 1  
3/4 yd 36" width makes 18  
Use Pellon, Felt or Foam

Method: Fold strip in half lengthwise. Cut notch in fold  
for hook, measure along hanger and mark each  
corner and end of strip (do not cut\* notch or pi  
piece off yet)\*(second notch). Embroider or  
paint design on one side as far as first corner,  
turn and continue pattern on back from where  
you left off to next corner. Again turn and  
finish pattern from where you left off on back  
to the end of strip. Place strip on hanger  
and sew by machine along cut edge, when near  
the corner push material on hanger until it is  
easy to get around the corner. Leave work in  
machine and check to make sure length is  
correct, cut notch in fold for hook and overlap  
with the beginning of strip. Turn material so  
pattern shows on front of hanger.

.....

#3

Material: Pellon, Felt, Foam or Ribbon 1/2" wide, 36" -  
48" long.

Method: Force hook into material about 1/2" from end  
and wind material around hanger being sure to  
pull snugly each time. Decorate with a  
flower from scraps.

Flower: Cut circle, fold almost in half, place another  
colour scrap in centre of half circle and sew  
gathering stitch along folded edge. Gather into  
flowers and cut leaf and gather along bottom edges.  
3 flowers and 2 leaves make a good arrangement.
