

and planted a post for the South East corner
of Township 4th 6 being my starting point as
per instructions.

From this point I ran due North astro-
nomically eighty chains to the line between
Concessions One and Two, where I planted
and properly marked a post; from thence
at right angles West along the line between
Concessions One and Two forty chains where
I planted and properly marked a post
for the line between Lots 1 and 2 in the
Second Concession, thence continuing West
forty chains, where I planted a post for
the line between Lots 2 and 3, from thence
at right angles South to the six mile post
aforementioned and thence East forty chains
where I planted a post for the line between
Lots One and two in the first Concession; I
continued blocking in a similar manner
that portion of the Township lying to the
North of Satter's Base Line; subsequently
blocking the portion lying to the South of
the said line to the waters of Lake
Michigan.
