

## Part 3 FWIO's Strengths and Challenges

As we begin our planning process, we also need to identify FWIO's areas of strength and challenge.

As we consider what opportunities might exist for FWIO in the broader context in which we work, we would also benefit from your sense of the strengths our organization has and the challenges we need to meet in order to make it the best it can be. Please think of FWIO's program, partnerships, structure, governance, infrastructure, use of technology, staff and other activities.

For example, if your Branch is not seeing much community interest in participating in events (a trend or change), you might note that the Rose Program and staff are helpful in assisting Branches in developing interesting and interactive programming in your community.

**Based on your reply to "changes and trends" above, please list the three strengths and challenges you feel are most crucial for FWIO to consider in planning for its future.**
