Lavard Women's Institute

Whereas, there is no dental doctor in the Town of Charlton, and the nearest dentist is several miles away in the Town of Englehart, and,

Whereas, the price of proper dental care is far more than the average family can afford, and,

Whereas, to receive dental care appointments have to be made several months in advance, or,

Whereas, appointments not being available when needed, persons have to travel great distances to larger neighbouring towns

Therefore be it resolved, that some form of dental care be made available, to our area, at a reasonable price.

Convenor, Mrs Helen Ryan
