

1960-61

7. One branch reports sponsoring a short course and buying a tin for a 4 H Club.

One Institute reports belonging to Film Council with regular showings of films and they also belong to the regional Library Board with books being made available to young and old in the community.

This branch also joined C. A. C and distributed their literature and bulletins.

One Institute reports donating to the Scholarship Fund and Pennies for Friendship.

Some Branches seem to be making good use of material obtained from various government departments and I would again like to recommend the magazine "Citizen" as an excellent source of material for programs.

Although it was not a branch undertaking I would like to mention that it was a branch convener who organized the Area Convention, theme "Education - Every body's Business" which was so well received and which I feel did much for public relations in the Institute.

(Mrs. Wm) Gune S. Plaut
Convener
