

few branches in this little settlement of a dozen families.

The evening session was held in the Assembly Hall of the Northern Academy with Mr. Hiscocks acting as chairman for the evening. The program consisted of both vocal and instrumental selections, an interesting talk by Dr. George on the progress of medical science in the prevention and cure of Tuberculosis and a talk in story form by our President on the beginning of Child Welfare Work, dating back to the time of the Abbe' Vincent de Paul and his work among the foundlings of Paris.

The evening closed with the National Anthem.

The following morning the chair was taken by Mrs. Coghill of Elk Lake. The morning was given over to general discussion and the consideration of resolutions.

Resolutions regarding reduced telephone rates, reduced motor license, mentally unfit and the moving forward of juvenile age to eighteen years were accepted as well as a resolution to have our grant restored to normal as soon as possible.
