Two of the ladies in the back seat resemble Mrs Brady & Mrs George Harris, & the man without a hat looks like Gordon Cooper, & the man on the right could be Joseph Mc Cully. The Keyes house was on the shore, not far from the Indian Camp - Casselman's house was originally built by Peter Shannon, & different people lived in it, including a school teacher, Mr Cunningham. Mrs Keyes was a daughter of Peter Shannon, & at one time had a millinery store, later <sup>owned</sup> by the Hillmans. Maybe Betty could tell you more about it. I don't remember hearing of Mr Keyes experiment in surgery. (Lottie Wallis helped Mrs Keyes in her millinery store)
