

of Home & Country were distributed & a vote of thanks was extended to Mrs MacPherson for her splendid reporting to the Press, for the past year.

Mrs Young gave a very interesting resumé of ^{the life of} Winston Churchill's mother.

The Agriculture and Canadian Industries Committee ~~took~~ presented their programme the high light of which was an address by Mr. Portelance, the Agriculture Representative, who spoke on Canadian Industry emphasizing the fact that since the war Canadian Industry has developed such that there are 5000 new industries in Canada, mentioning especially Labrador iron ore, Steepe Rock, Ontario Iron, Alberta and Saskatchewan oil fields; and the Toronto, Hamilton manufacturing areas, which are foreseen as stretching from Kingston to Niagara Falls; British Columbia aluminum, the Canadian Hydro extensions, and the huge project of the St. Lawrence Sea Way. Mr Portelance ended his talk by reminding us to keep in mind that right now Canada is the most promising country in the world.
