Dear Sponsors;

Now we have spring season after long cold winter. Her fresh buds are appeared and many beautiful flowers are showing up and make our life encouraged. The pleasant birds sing this nice time and call for spring festival.

With this wonderful season we had also a very important guest from West Germany. Mr. Lübke, the President of that country visited here as the first foreign President. We welcomed him very enthusiastically waving the flags and shouting standing along the streets despite of rainy day. I think he was satisfied with our welcome.

Much pleased to get the sponsorship grant of 2,500 won that you sent to me to keep schooling. I could pay tuition fee and buy school things too. Now I am in the grade five. And I get older again. I am 12 y ars old now. I hope you will live very long and healthy in your lives. Well I must close for today. Bye bye.

Sincerely yours,

Kim Hyung Il
