On Tues. May 13<sup>th</sup>, eighteen ladies attended a short course entitled "Brighten your home with colour" at the Chester's Corner School. The course was given by Miss J. Armour of Toronto. She gave us many useful suggestions and ideas on decorating our homes, also how to make small rooms appear larger, and large rooms seem to be smaller. We especially enjoyed her large selection of fabrics and materials, and the information she had for us regarding colour.

This course was (1) very much appreciated by the ladies attending.
