

MINUTES OF ANNUAL MEETING

Date: June 13, 1950 Place: Neaslip Hall

Miss Mc Bride in her address said we should choose the co-operative programme we were most interested in and which we thought would help the community most. We should advertise it and feel that we are going to help the whole community. So that young mothers can attend have some one to look after the younger children. Find out why they are not interested - look at ourselves and see if the fault lies in our own attitude & behaviour. She then explained the different district services offered.
