

The Tweed News/LACY MEEKS

*Tweed residents Denice Wilkins, Penny Vance and John Wilson were delighted to be a part of organizing the showing of the documentary "The Clean Bin Project" at St. John's United Church on Wednesday, June 5th. The trio first watched the movie at Doc Fest and found it so engaging that they wanted to provide their community with an opportunity to watch the eye opening film as well. The film left a lasting impression on the over 30 people in attendance at St. John's and sparked the conversation 'how can we do better'? This is a film everyone should watch, full of facts and laced with humour.*
