

house was built in 1970 and a bunk silo 22 x 65 was built east of the barn in 1974.

The house has had another new roof in 1983 and the barn in 1986. The bathroom was installed in 1960 and the home heating system changed to propane in 1966 when the furnace was installed.

The soil is clay loam with much natural drainage and tiling over the years has added to the productivity of this fertile land. For the past thirty five years it has been primarily a dairy farm with the herd prefix being also the farm name "Delru Farm". This is the history of lot 26 con. 12, East Zorra from 1820 to 1987. Many changes have taken place as divisions, changes in farming practises and ownership but it has given shelter and food for several families for over 130 years and will continue to do so in years to come.

D. Rudisuela 1987.
