

Emily Guest Is Inducted Into The Middlesex County Agricultural Hall of Fame – March 9, 2005

Laurena Storey is responding to the life history presentation and the induction into the Hall of Fame of Emily Guest.

“History is made up of People – People who are part of events – Events that have developed the Province

Therefore, while we are grateful for the Things - the artifacts - in a museum, it is only right and fitting that we honour those men and women, who provided the dynamic, effective leadership which transformed our Province from forest wilderness to becoming a model of modern efficiency. Such were the people who did not live for self, alone, but for the betterment of all mankind. There can be no better objective and no greater achievement.”
