Wildwood Park Public School has been busy these last two weeks as the children celebrated "Pioneer Days".

Pioneer dances and songs which told the pioneers' story were taught by Mrs. M. Mainprize.

The students really got into the spirit of bread-making as Mrs. J. Hryniv demonstrated this art.

Stitchery was introduced to the students by Mrs. F. Redman. Each child made a block which was sewn into a quilt and put together by parents Mrs. J. Tate and Mrs. A. Gregory.

An old toy collection belonging to Mrs. Erma Bea was shown and explained to the classes as Mrs. Beaty taught a unit on pioneer toys. The children made clothespin dolls, spool tops and button and string games. *June 25/80*

Several demonstrations were held during the study. Bev and Allan Slater made butter, Mrs. Joyce Grooves, of London, showed the children how to make applied head dolls and Mrs. Joan Facey introduced the art of spinning.

Friday, June 19 was the culmination day for the Pioneer event.

An assembly was held at the school with parents and friends present.

The children presented a program of songs and dances. The quilt and other displays were there for viewing by the visitors.
