## THANKS FROM ENGLAND

The Editor: After coming back home from a visit to your beautiful country, there is so much one can appreciate - the beauty, but most of all the kindness of its people.

To the Women's Institute of Brownsville and the people... I have met from Tillsonburg, there are no words which can express my appreciation for the kindness that has been shown and is being shown to my sister, who has been ill.

While I sit and think of my sister, I do have the consolation of knowing that she is surrounded by kindness and compassion... To all the people who drove me to Victoria Hospital, London, to see her, and back, I will always be grateful.

This is the only way I can express my thanks to the community of Brownsville and Tillsonburg.
