One year old, Arthritis Society has successful 1977

Although the Norwich, Burgessville and Otterville Branch of the Arthritis Society was only established a little over one year ago, it has proved to be an organization many people in Norwich and district are vitally concerned with.

At a meeting of the executive held in February, it was reported last year's campaign was extremely successful. Thanks to the tremendous efforts of the campaign chairman, Janet Spek and her committee, a

total of \$1,830.00 was raised in the area, a terrific increase over the 1976 total of \$439.00.

This year's fund raising campaign will be held September 17-24 and again headed by Janet Spek.

The money raised will be used in the Society's programs of research and education. The Society's five year plan calls for doubling of rheumatologists (specialists in arthritis) in Canada.
