

Castleford Women's Institute  
Organized July 15, 1913

## INTRODUCTION

The Federated Women's Institutes of Ontario is proud to present "A Century of Fashion", researched, written and published by Northern Area Women's Institute as part of the celebrations to honour the 100th Anniversary of the Women's Institute on February 17, 1997.

The Booklet was produced to encourage Members to hunt in their attics and trunks for clothing and accessories worn during the past nine decades, which could be included in a Fashion Show. Added information is available from the local library.

The outline is presented so the diagrams and sketches will stimulate further ideas for the presentation of a Fashion Show, in honour of the anniversary.

As the models appear on the platform, the commentary in the booklet provides suggestions to be used by the commentator.

Good luck to all who seize the opportunity to promote a Fashion Show, using all or some of the ideas in the Booklet. When you include your own thoughts each show will be unique.

Your support is appreciated.
