## Autographs second book

Author Joan Irvine was at Readables Book store recently to autograph her second book, "Jeremy Jay Explores Nature in Winter." Above she is signing a copy for Barry Greig of the Country Deli. Joan's first book Garnet the Goose Explores the Bruce was well received in the area. It contained games, cutouts, colouring, recipes and information about nature on the Bruce. The second book done in calligraphy features articles on the weather, birds, animal life, indoor and outdoor activities as well as cut-outs and games. The two books would make ideal Christmas gifts for children, being both informative and fun. They sell at \$2.00 each and are available at Readables. Joan lives at R.R. 2 Warton.
