

MRS. HUBERT ALDERSON WITH KINTORE'S GRADE SEVEN

## Four Classrooms Added To Give Kintore Seven

KINTORE — The A. J. Baker School has been expanded to more than twice its original size. Four new rooms were added to the original three room schoolhouse and were only just finished before opening time.

The school was enlarged to accommodate those pupils displaced when Holiday SS No. 9 and SS No. 2 were closed last June.

To meet the new demand for transportation to central, school bus operator William Day added three more buses, enlarging his fleet to five.

Since the school was built in 1959, it has housed pupils from SS No. 1 and part of the Lakeside section. The school

was named after A. J. Baker who was secretary of the school board some years.

Registration totals 237 including 36 beginners and two sets of twins also.

Principal J. D. Kennedy's staff includes Mr. Hubert Alderson, Mrs. Hilton Milne, Mrs. Allan Woods, Mrs. Glen Chute, Mrs. Kenneth Mainprize and Mrs. Edward Henderson.

Bus drivers are William Day, Harvey Barons, Austin Alderson, Newton Crawford and John Seaton.

Kintore Boxes Ltd. built the new addition. Considerable work has to be done on the grounds before landscaping is completed.

The thanks of the club were ably extended to Colin on behalf of everyone by Rotarian Hub Dickinson.
