

Our receipts for the year were \$463.78, and expenditures were \$473.40. We have now a little to the good from members fees for 1930. Eight general meetings for all members and numerous directors meetings were held.

A flower-show was held in August in the new house in the park. 30 maple shade trees were planted in the village and nearly all are living. A clean-up day is held yearly, and a noticeable ~~note~~ improvement in the yards, gardens and streets is an incentive to carry on."

And so the work of the Society has progressed. Before leaving off their work in the Cemetery a fine row of Spirea bushes were planted inside of the fence, and many bulbs for Spring blooming were

planted between the bushes. Then the work at the Cemetery was taken over by a Cemetery Board. - But the beginning of the cleaning up and the process of trying to make the Cemetery more beautiful ~~was~~ will always be credited to the Horticultural Society. In 1945-46 - their energies have gone towards cleaning up, grading, planting ~~shrubs~~ trees along the sandy bathing beach. Children's swings and slides have been erected.

In order to carry on this work in the village two orchard lots were sold at the back of the Memorial Park, but the corner lot and the building & lot it is upon have been retained.

\$1500⁰⁰ was spent at the shore in two years. Present membership is ~~70~~ ⁸⁵ 70
